

RALLY ON ENVIRONMENT AWARENESS

Salwanians are persistently contributing their efforts in sensitizing community towards the grim environment issues.

In the drive "Saving the Planet", the students, parents and staff of the school joined an Environment Awareness Rally in Balram Nagar & Lal Bagh from 11:00am-1pm. The objective was to raise awareness to revive the health of our planet which has been deadly affected by the constant use of plastic bags and restore the ecological balance by using jute bags and cloth bags.

The vehement, energetic and vibrant mass procession marched ahead with full dynamism. The highlight of the event was Street Play prepared by the students on the theme 'Say 'NO' to Polybags' and 'Save Water'. The street play showcasing disastrous impact in 2050 was really an eye-opener for the residents who hadn't considered this issue very alarming. Students raised slogans, displayed posters, interacted with commuters and distributed them the pamphlets on environmental preservation.

The rally was flagged off by Shri Nand Kishor Gurjar, Hon'ble MLA, Loni Constituency who joined this mission of ours and reiterated, "Salwanians have done a commendable job in raising awareness among the masses about this issue. The current water scarcity calls for an awakening and sincerity of actions." He strongly emphasized on the urgency to save the environment and promised to take it ahead as the issue of national importance. This rally worked as an eye-opener for residents and had an enlarging scope in encouraging the citizens for saving the planet from moving towards disaster.
